ZIRCONIUM OXYGEN  
ANALYZING SYSTEM

# **OXITEC ECONOMY**

REDUCED MAINTENANCE COST  
WITH LONG-LIVED CELL

**TÜV TA-Luft CE**

**OXITEC ECONOMY**

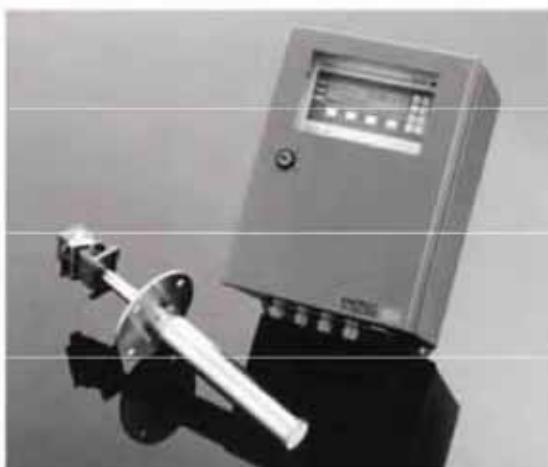

## OXITEC® ECONOMY

### MLT HIGH PROTECTION CELL IS APPLIED TO MEASURE OXYGEN FOR SMALL TO MEDIUM SIZE BOILERS.

The High Protection cell Multi-Layer-Technology that is critical for the model of OXITEC5000 in terms of the long measuring life and the measurement accuracy, has been applied to ECONOMY as well, thus making such a highly efficient and lower cost Zirconium Oxide measuring sensor.

Oxygen Analyser under OXITEC series, featured by the sealing technology that is thermal shock resistant, has proved its long life and its high resolution for a long period time. It has wider dynamic range as it can withstand high temperature and reduce its running cost for lower maintenance. OXITEC ECONOMY, taking in these advantages, has been developed to measure oxygen for small to medium size boilers.

\*Although it can be used in applications to 1400°C depending on a probe, it is intended and suitable for use in relative clean-gas applications.

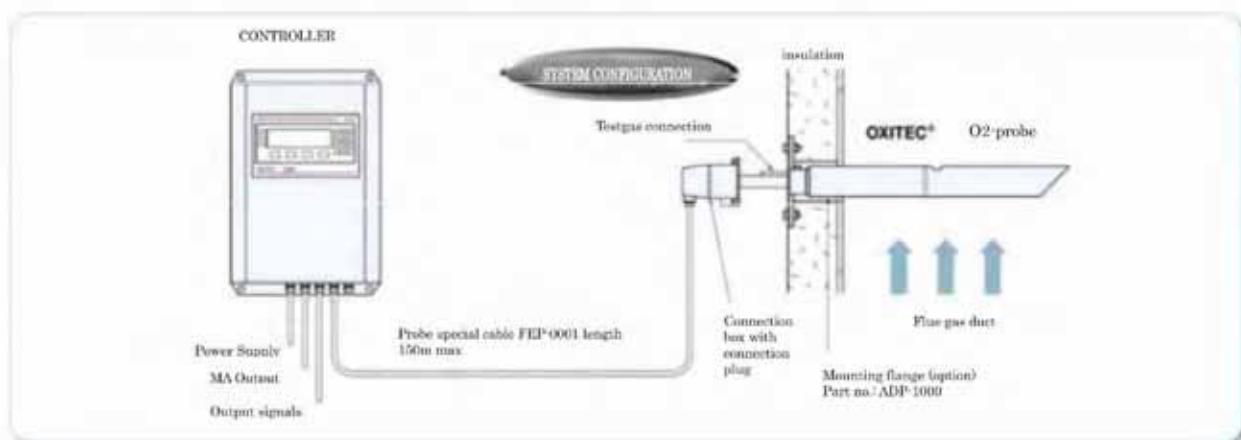

#### ■ FEATURES

- High-protection Cell with our special Multi-Layer Technology.
- Factory calibrated
- Easy installation and simple operation
- Cell with a longer measuring life is equipped with.
- Lower maintenance
- Customer can replace parts.
- Gas sampling/processing not required.
- It can be used in applications of high temperature to 1400°C.
- Faster response time – flue gas velocity

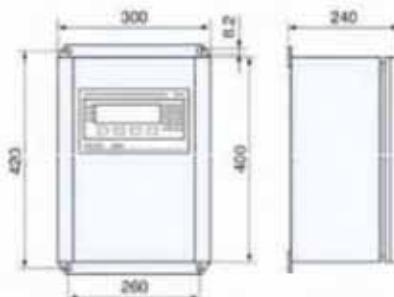

#### ■ APPLICATIONS

- Power plant
- Waste incineration system
- Food industry for sugar, coffee & others
- Beverage/brewing
- Chemical industry for soap, paint, rubber and others
- Petrochemical for PVC and others
- Paper/pulp industry
- Cement industry
- Glass, Carbon, Ceramic

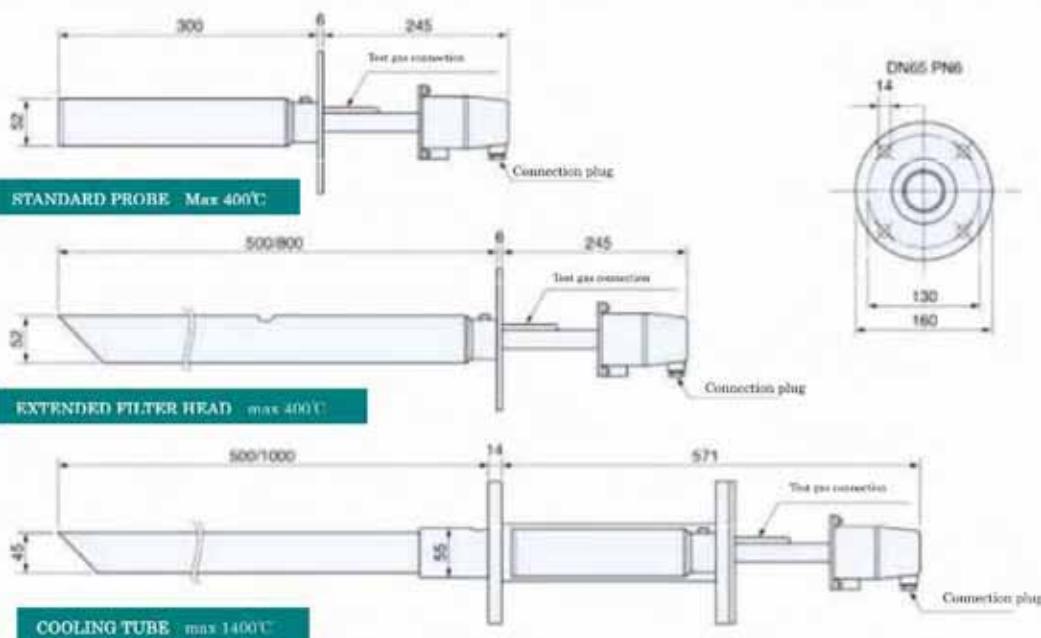

### ■ CONTROLLER

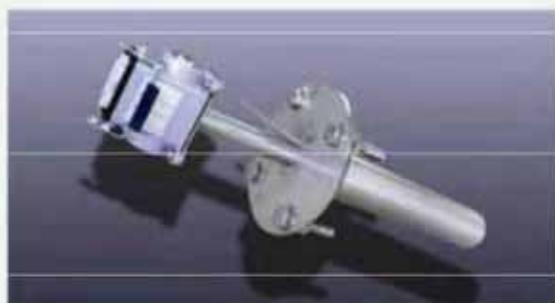

### DESIGN OF MEASURING PROBE

Master No.	Branch No	Insertion length	Temperature	Supplemental
ECO-0000	1	300mm	Max 400°C	Standard
	2	500mm	Max 400°C	Extended Filter Head
	3	800mm	Max 400°C	Extended Filter Head
	4	500mm	Max 1400°C	Cooling Tube
	5	1000mm	Max 1400°C	Cooling Tube

## ■ OUTLINE OF SPECIFICATIONS

ITEMS		OXITEC ECONOMY
CONTROLLER	Sensitivity	below 1ppm O <sub>2</sub>
	Accuracy	± 0.2% (from measured value)
	Resolution(A/D Converter)	14 Bit
	Housing	Wall-hanging Type with a window box SS, IP65 400mm x 300mm x 240mm
	Power voltage	115VAC or 230VAC 50/60Hz
	Power Consumption	100 – 200VA (400VA at start-up)
	Recommended Fuse	10A
	Temperature	-10 ~ +45°C
	Range	1 range, 0 – 99% adjustable
	Output	Analogue 0/4-20mA max 500Ω resistance load Indication System error, maintenance Relay contact Option
Interface	Option	
Display	LCD/LED, Graphic display	
PROBE(Electrode)	Housing	AC, IP65
	Flue gas temperature	Max 400°C or max 1400°C (KSR gas cooling tube)
	Material	SUS316
	Mounting specification	DN65/ PN6 (can manufacture JIS Flange)
	Gas flow velocity	Max 25m /second
	Flue gas pressure	-50mbar ~ +50mbar
	Ambient Temperature	-40°C ~ +80°C
	Response time	0.5s (flue gas flowing = 10m/second)
	Cable	6m, 12m, 18m, 24m, 30m (on request)
	Interface	RS232
OPTION	Output contact System error, Maintenance, Upper limit, Lower-limit relay-contact output Contact capacity: 230VAC 5A resistance load	

※予告なく仕様変更することがありますので予めご了承下さい。 Specifications and descriptions of this catalog are subject to change without notice for improvement.
